GROUND PROTECTION SOLUTIONS

Two avenues to site access.

We procure or rent **any mat, from any manufacturer** — flagship **Big Bad Mats** — to keep crews and equipment moving. **Buy the product** and run your own fleet, or **choose our full turnkey service** and we handle everything.

A · Buy the Product
ANY MAT THAT FITS · YOU OWN

→

B · Turnkey Service
ANY MAT THAT FITS · DONE FOR YOU

Bad ground stops good work.

Soft, sensitive, or regulated terrain slows mobilization, damages equipment, and creates environmental and safety exposure. The right ground-protection system protects the site — and the schedule.

Downtime & delay

Stuck equipment and rutted access roads push mobilization and blow milestones.

Safety & compliance

Unstable footing and disturbed ground raise incident risk and regulatory exposure.

Site & restoration cost

Damaged terrain means costly remediation and reclamation once the job is done.

OneHarvestCo. solves it two ways — you choose how much to own and how much to hand off.

Any mat, flagship Big Bad Mats. Two ways to deploy.

A — ANY MAT THAT FITS · YOU OWN
Buy the Product

Buy any mat from any manufacturer — flagship Big Bad Mats — and own a reusable fleet you control.

- Procure any mat, sourced to your spec
- Flagship Big Bad Mats for lowest cost-per-use
- Own the fleet & self-deploy on your schedule

B — ANY MAT THAT FITS · WE HANDLE IT
Turnkey Service

Hand off the whole job — we source, deliver, install, maintain, and remove the right matting (rental included). No capital, no logistics.

- Any mat sourced & managed for you
- Zero capital — pay per project, no storage
- One accountable partner, end to end

ANY MAT THAT FITS · YOU OWN

A Buy the Product

Buy any mat from any manufacturer — with our flagship Big Bad Mats when durability matters most — and build a reusable fleet you own. Ideal when site access is a recurring need and you want the lowest long-term cost with full control.

WHAT YOU GET

- Any mat, any manufacturer — sourced to your spec
- Flagship Big Bad Mats: certified ratings & long life
- Ramps, connectors & accessories to spec
- Volume pricing that improves cost-per-use
- Complete control over when and where you deploy

THE ECONOMICS

Every reuse spreads the one-time purchase across more deployments — so cost-per-use keeps falling. For high-frequency crews, ownership wins on total cost of ownership.

BEST FOR

In-house crews with recurring site-access needs who want the lowest long-term cost and full control.

ANY MAT THAT FITS · TURNKEY, DONE FOR YOU

B Turnkey Service

Hand off the whole job — we source any mat that fits (flagship Big Bad Mats) and build, protect, and restore the site for you or the client you serve, rental included. No purchase, no storage, no logistics. Just site access, handled.

HOW IT WORKS

1

Assess

Site assessment & access plan for your job.

2

Deliver & install

We ship and professionally install the system.

3

Maintain

On-project upkeep & repositioning as work moves.

4

Remove & restore

Teardown, removal & site restoration when done.

BEST FOR One-off or short-duration projects, teams with no storage or handling capacity, and contractors delivering turnkey site access to their own end-clients.

Which path is right for you?

	A · Buy the Product	B · Turnkey Service
MAT SELECTION	Any mat · flagship Big Bad Mats	Any mat · flagship Big Bad Mats
CAPITAL	One-time purchase (CapEx)	No purchase — pay per project (OpEx)
OWNERSHIP	You own & keep the fleet	We retain & manage the fleet
LOGISTICS	You store, haul & deploy	We handle everything, end to end
MAINTENANCE	Your crew's responsibility	Included in the service
BEST WHEN	Frequent, repeat, in-house use	Project-based work / no overhead

Let's get your site ready.

Tell us about the job and we'll recommend the right avenue — and price it for you.

Pricing model

TO CONFIRM — e.g. per-project quote or rental + install fee.

What's included

Site assessment, delivery, installation, maintenance, removal & restoration.

Coverage & response

TO CONFIRM — service area and typical response time.

Buy the product, or go full turnkey — any mat.
